

**Veterinary Surgeon:** .....

**Veterinary Practice:** .....

**Email Address:** .....

**Animal Name:** .....

**Client Name:** .....

**Species:** .....

**History/Clinical Details**  
(Including antimicrobial therapy):

.....

.....

.....

**Lab Number:**

**Date Received:**

**OLN:**

# Companion Animal Submission Form

**Date Taken\*:**

**Blood Profiles**

Type: Plain/Serum/Heparin/EDTA

- Haematology
- Reticulocyte count
- Biochemistry
- Haematology and Biochemistry
- Urea and Creatinine
- Electrolytes
- Full electrolytes
- Bile Acid Stimulation Test
- Individual Biochemistry:  
State:.....
- Fructosamine
- SDMA
- CRP (K9)

**Therapeutic Drug Monitoring**

- Phenobarbital
- Potassium Bromide
- Digoxin

**Urine Analysis**

- Urinalysis
- Urinalysis and Culture
- Urine Protein: Creatinine Ratio
- Full Urine Analysis + UP:C

**Endocrinology**

- T4
- Cortisol
- Progesterone
- K9/Feline ACTH Stimulation Test
- Dexamethasone Suppression Test

**Faecal Analysis**

- Salmonella Culture
- Campylobacter Culture
- Full Faecal Analysis
- Cryptosporidium parvum
- Giardia duodenalis

**Bacteriology**

- Aerobic Culture:  
Site.....
- Anaerobic Culture
- Ear cytology
- Full Ear Package
- Gram stain

**Infectious Disease qPCR**

- Feline Herpes Virus qPCR
- Chlamydia felis qPCR
- Feline Calicivirus qPCR
- K9/Feline Bordatella bronchiseptica
- K9 Parainfluenza Virus (Type) qPCR

**Tracheal Wash and BAL**

- Tracheal wash/BAL Cytology
- Tracheal wash/BAL Cytology and culture

**Sterile Fluids**

- Sterile fluid cytology and TNCC
- Sterile fluid cytology, TNCC and culture

**Dermatology**

- Skin scrape microscopy only
- Skin scrape microscopy and fungal culture
- Skin scrape microscopy, fungal culture and aerobic culture

Please tick this box if samples CANNOT be used for research purposes
